

## **Private/Home School Services**

Morgan Mill ISD will identify eligible participants for private school services as students with disabilities placed voluntarily by a parent in a private or homeschool within the attendance boundaries of the district and who have been designated to receive special education and related services. Eligible participants are those students having a current evaluation that meet special education eligibility criteria, ages 3 (on or before September 1, 2020) through age 21. A meeting will be held for any student eligible for services.
